ALLIES ON INITIATIVE, HUNS ON DEFENSIVE

GERMANS MUST MOVE OR BE POCKETED

Battle is Increasing in Intensity on Whole Front

Franco-Americans Forge Ahead on Twenty-Five Mile Front---Huns Leaving Soissons

(By United Press)

The allies are assailing the German Marne salient from both sides while the Franco-Americans are driving forward on a twenty-five mile front between the Aisne and the Marne, the Franco-Italians are attacking on a fifteen mile front east of Chateau Thierry from the Marne toward Rheims. In the Franco-American attack new progress has been made and additional prisoners have been taken. The Germans are reported destroying Soissons base preparatory to leaving. The Franco-Italians have taken two towns and two woods.

BY FRED S. FERGUSON,
(Staff Correspondent, United Press)

With the Americans in Champagne, July 19—The battle intensity increases on the whole front from the Aisne to the Marne. As this is filed at 2 P. M., the Franco-Americans are driving forward in an extended advance toward the main highways from Soissons to Chateau with the great reserves aiding. The Germans are heavily counter attacking southwest of Soissons, and have been bloodily repulsed. The Franco-Americans continue holding the lines attained yesterday and are advancing eastward.

Germans Must Move or be Pocketed

London, July 19—The Germans near Soissons must move fast to avoid pocketing.

Regain All Lost Ground in One Smash

BY LOWELL MALLETT
(Staff Correspondent United Press)

With the French Afield, July 19—With one wide sweep smash the Franco-Americans undid practically all the latest German offensive accomplished. The success is so complete as to foreshadow the time, now considered inevitable, when the Germans must give ground everywhere.

Germany Closes Baltic Frontiers

Stockholm, July 19—Germany has closed the frontiers of the Baltic provinces and the Ukraine.

Rainbow and New-England Divisions are Engaged

BY ED L. KEEN.

Washington, July 19—The Rainbow and New England divisions are complete American units participating in the present offensive. Chief of Staff March told the house military committee. Parts of eight German divisions are engaged.

The committee was told that two million two hundred thousand men either were in France or enroute. The Rainbow division contains troops from some of the north western states.

German Planes Destroyed in Combat

(By United Press)

London, July 19—Two German air-planes fell in the North Sea and three others were wrecked during a combat between nine German and four British planes it is declared today.

Limberg dispatches declare that allied airmen bombed and blew up a munition factory at Rothen. An allied air raid on Ludwigshafen July 11 killed 30 and wounded 60 advised state.

London, July 18—Three enemy machines were destroyed and the fourth shot down by British aviators Wednesday the British admiralty said today. In addition six hostile balloons were destroyed.

Hoover is in England

(By United Press)

London, July 19—Herbert Hoover has arrived in England.

AMERICANS PRESS HUNS AT MONTDIDIER SECTOR

L. M. Depue

L. M. Depue, formerly cashier of the Brainerd State Bank, is now cashier of the North Commercial State bank of Minneapolis.

Germans are on Defensive Everywhere

(By United Press)

Paris, July 19, 4 P. M. (Official)—The allies have taken the initiative and the Germans are on the defensive everywhere. The Franco-Americans are pressing the enemy near Montdidier. The number of prisoners and guns surpasses our fondest hopes.

Rainbow and New England Divisions Participating in Offensive

Franco-American Advance of 8 Miles, Twenty Towns Taken, Thousands of Prisoners

American Army in Champagne, July 19—The American and French troops after organizing yesterday's gains have resumed the offensive between the Aisne and the Marne at four this morning. They pushed forward behind a rolling barrage on the whole front from Soissons to Chateau Thierry, driving the Germans before them. At this hour no reports have been received of the extent of the new gains. Airmen report huge explosions and fires in Soissons, evidently the destruction of ammunition dumps and supplies preparatory to the evacuation of the city.

One American unit pressed forward so rapidly yesterday afternoon it is learned today that they overtook a party of captured Frenchmen working on the roads under German guards. They captured the boches, released the French, who seized their former captors arms and pressed forward with the rescuers.

The Americans and French have advanced six miles all along their front. The towns captured now total twenty. They have captured 4000 prisoners and took enormous amounts of ammunition. The Americans are now within one mile of Soissons which would mean they are able to destroy the German communication lines. The enemy are fleeing so fast the Americans had to mount cavalry to keep up with them.

Penetrate Enemy Line Eight Miles

(By United Press)

London, July 19—The French and Americans are within one mile of Soissons, it is learned authoritatively today. They moved all along the line between the Aisne and the Marne, the greatest penetration being eight miles. One American division took Vierzy and is reported to have advanced three miles beyond.

Capture 10,000 Hun Prisoners

(By United Press)

Paris, July 19—The French along the Chateau Thierry Soissons front have taken more than ten thousand prisoners, the Galois declared.

Germans Throw in Reserves to Check Advance

Paris, July 19 (Official)—German reserves have been thrown into the battle to check the Franco-American advance.

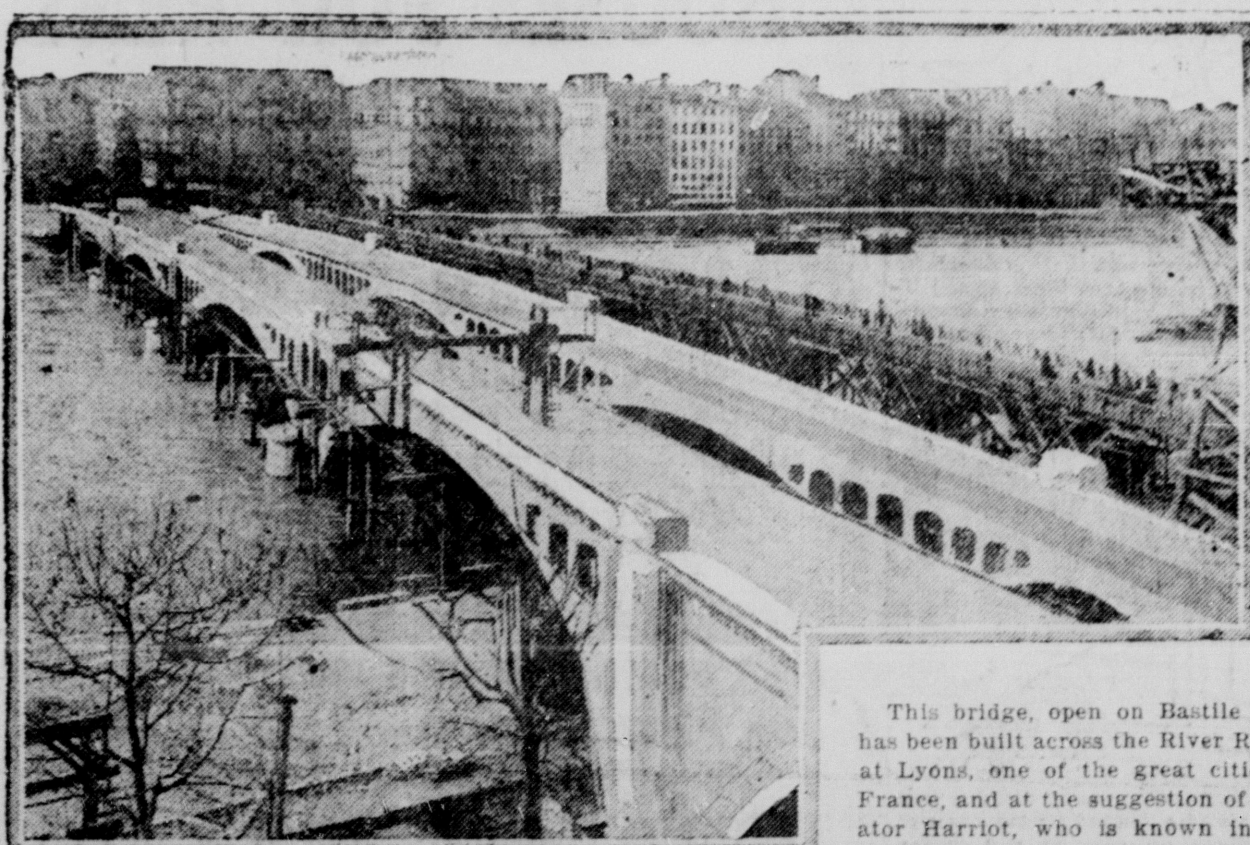

EXTRA! EXTRA! SOISSONS HAS FALLEN 30,000 TAKEN PRISONER

(By United Press)

Washington, July 19, 4:30 P. M.—Soissons has fallen before the Americans and French it was officially announced here today.

30,000 Germans have been taken prisoners.

President Wilson Bridge Open Bastille Day at Lyons, France

PRESIDENT WILSON BRIDGE AT LYONS, FRANCE

This bridge, open on Bastille Day, has been built across the River Rhone at Lyons, one of the great cities of France, and at the suggestion of Senator Harriot, who is known in the United States. It was named the "President Wilson Bridge."

Haig Reports Successful Raids

(By United Press)

London, July 19—General Haig reports successful raiding operations.

Patriotic to Eat Coconuts.

Is coconut pie an essential? The Wall Street Journal wants to know. No, but gas masks are. It is a far cry from coconut pie to gas masks, but we are enabled to indulge our appetites in the one and supply the other through a single operation.

Gas masks contain a certain brand of charcoal which is an absorbent of poison gas, and it has been found that the rind of coconuts, when burned, produces a charcoal superior to all others. For this reason the government has placed the humble coconut on the list of essential products and our friends on the island of Porto Rico are urged to ship as many as they can.

When eating a piece of coconut pie or any other delicacy containing coconut you are enabled to do so with an easy conscience. The charcoal made from the shell of the coconut you eat may be saving the life of an American soldier "somewhere in France."

Where Italians Have Won Victory in Albania

The shaded portion of the map between the heavy black lines shows the advance the Italians have just made in Albania, and the large city of Berat, which they have taken. The black line through Monastir and on the east shows the battle line. The arrows indicate the retreat of the Austrians toward the Skumbi River.

Must Have Same Faith.
An appreciation of beauty, of the
adaptation of design to a purpose, may
help us to believe in a wisdom, in a
plan far beyond our ability to know or
understand. A contemplation of the
natural world will strengthen faith;
make hope more buoyant. Everyone
must have some faith if living sanely.
Nothing created is without its purpose.
As long as we see the design fulfilling
its purpose in some things, we may be-
lieve that all is working to its ap-
pointed end, though we know not what
that end is.

Says it Acted Like a Charm
Coughs or colds which persist at
this season usually are of an obstinate
nature. All the more reason for
using a reliable remedy. Mrs. Margaret
Small, Bishop, Calif., writes:
"Foley's Honey and Tar Compound is a
grand remedy. Suffered from a
cold last week, used the medicine and
it acted like a charm." H. P. Dunn,
druggist. mwf

You Who Owe Money

PERHAPS you have a mortgage to pay
some time in the future. Are you pro-
viding for it?

Or you may have personal obligations,
their maturity hastening on.

Or perhaps you have a loan on your life
insurance—a mortgage on the happiness of
your heirs.

There's no better way to create a cash
reserve to pay off maturing obligations
than a savings account with this bank.

Saving to extricate yourself from debt
leads to the habit of saving for your
future needs.

This bank will be glad to help you
accumulate a surplus.

nesday and Friday nights. Pat Mc-
Gill. 37t3

John M. Taylor, vice president of
the sixth district of the State Federa-
tion of Labor, representing the
Brainerd Trades & Labor Assembly at
Virginia, was appointed on the com-
mittee on resolutions by President
Hall.

A team belonging to H. Zierke and
used by the Northwestern Telephone
Exchange Co., ran away near noon
and the buggy collided with Peter-
son's Ford near Nick Christoff's place
lost half a dozen spokes and then was
completely smashed at the depot
park. The driver jumped when the
shafts fell near Sherlund's garage.

RETURNS FROM OMAHA

Dr. C. A. Nelson Attended Annual
Meeting of Missouri Veterinary
Medical Association

Dr. C. A. Nelson returned yesterday
from Omaha, Neb., where he attended
the annual meeting of the Missouri
Veterinary Medical association. He
reports a successful meeting with
about 300 veterinarians attending.

Among other resolutions passed,
one in the interest of conservation,
was to urge legislation towards es-
tablishing rendering plants in all
communities whereby all dead ani-
mals are rendered into oils, glycerine
and other valuable products. It was
pointed out that glycerine is much
needed now in producing explosives
and that the price has risen from
about 10 cents to 70 or 80 cents per
pound wholesale and scarce at that.
Such rendering plants are now in op-
eration in some states under state
supervision and it has been shown
that they can be so managed that
they will not be a source of nuisance
in the way of noxious odors provided
they are licensed and under strict
state supervision. The states of Ohio
and Indiana have tried this system
quite extensively.

Dr. J. I. Gibson, state veterinarian
of Iowa, said that enough dead hogs
were buried yearly in his state to
supply the shortage of glycerine. It
was shown clearly that a great econ-
omic waste could be taken care of in
this manner to say nothing of a com-
paratively new industry which proves
remunerative in the hands of com-
petent parties.

RAILWAY MAIL CLERK

Civil Service Examination for Same
at Brainerd on Saturday, Aug.
10, Entrance Salary \$1100

The United States Civil Service
Commission announces an open com-
petitive examination for railway mail
clerk, on August 10, 1918, at Brainerd,
Minn., and other cities and towns
throughout the country. Vacancies
in the railway mail service through-
out the United States will be filled
from this examination, at the en-
trance salary of \$1100 a year.

Competitives will be examined in
the following subjects: Spelling,
arithmetic, letter writing, penman-
ship, copying from plain copy, and
geography of the United States.

Applicants must have reached their
eighteenth but not their thirty-fifth
birthday, must measure at least 5
feet 5 inches in height, without boots
or shoes, and must weigh at least 120
pounds without hat or overcoat, and
must have no physical defects.

Applicants must submit to the ex-
aminer on the day of the examination
their photographs taken within two
years, securely pasted in the space
provided on the admission cards sent
them after application has been filed.

Persons desiring to enter the ex-
amination should apply at once for
application blank, Form 304, stating
the title of the examination desired,
to the Civil Service Commission,
Washington, D. C. or to the Secretary
of the United States Civil Service
Board at Brainerd.

Applications should be properly ex-
ecuted, including the medical certifi-
cate, but excluding the county officer's
certificate, and filed with the
Commission at Washington in time to
arrange for the examination.

HUNTS FROM THE DIAMOND

The North Side Giants with Joe
Day pitching beat the East Brainerd
kid team 7 to 6 in a 9 inning game
at the Keoring grounds Thursday.
The battery for the losers was Lester
Peterson and Clem Keoring.

At Staples Wednesday Verndale
was defeated 14 to 5.

On July 24 at Long Prairie, Staples
will play a game to settle a dispute
arising over the game of June 30.

At Little Falls there is always a
bodyguard of four car owners volun-
teering their services to carry the Red
Cross nine to any outside town. At a
recent game J. H. Vertin's car was
being repaired and he quickly hired
a car so that he could fulfill his prom-
ise to carry the team.

On August 4th Brainerd plays at
Staples and the list of car owners has
been given the Chamber of Commerce
and the secretary will proceed now
to round up four cars for that date.

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure cat-
arrhal deafness, and that is by a
constitutional remedy. Catarrhal
deafness is caused by an inflamed
condition of the mucous lining of the
Eustachian tube. When this tube
is inflamed you have a rumbling
sound of imperfect hearing and when
it is entirely closed, deafness is the
result. Unless the inflammation can
be reduced and this tube restored to
its normal condition, hearing will be
destroyed forever. Many cases of
deafness are caused by catarrh which
is an inflamed condition of the mucous
surfaces. Hall's Catarrh Medi-
cine acts thru the blood on the mucous
surfaces of the system.

We will give One Hundred Dollars
for any case of Catarrhal Deafness
that cannot be cured by Hall's Cat-
arrh Medicine. Circulars free. A
Druggists, 75c

F. J. CHENEY & CO.,
Toledo, O.

Mascagni and the War.

Pietro Mascagni, the celebrated com-
poser, once told how the opening
chorus of "Cavaleria" was composed
on the night of February 3, 1880, when
his first child was born. That son,
Mimi, is now, or was recently, driving
a motor-truck for the Italian army;
and a second boy, Dino, became a pri-
vate in the engineer corps, blowing up
Austrian barbed-wire barricades. On
a visit to the young soldiers Mascagni
saw his first battle.

"This is indeed music," he wrote, "It
seems as if all the big drums in my or-
chestra had been multiplied by a mil-
lion and suddenly gone mad."

The composer gave open-air concerts
in the trenches, on one occasion at-
tended by the King of Italy, and he
set himself at work on a great patriot-
ic symphony, designed to be a musical
apotheosis of Italy's "war of redemption."

Rheumatic and Kidney Ills.

Troubled with rheumatism, kidney
or bladder affliction? You need Foley
Kidney Pills. Mrs. Frank P.
Wood, R. F. D. 2, Merrill, Maine,
writes: "I found relief as soon as I
began taking Foley Kidney Pills. My
husband also received much benefit
from them. He was lame, could not
stoop over; now feels no pain." H.
P. Dunn, druggist. mwf

Dangers of Constipation

Neglected constipation may cause
piles, ulceration of the bowels, appen-
dicitis, nervous prostration, paraly-
sis. Don't delay treatment. Best
remedy is Foley Cathartic Tablets.
Do their work surely, easily, gently,
without injury to stomach or intes-
tinal lining. Contain no habit-form-
ing drugs. Fine for fat folks. H.
P. Dunn, druggist. mwf

WOMAN'S REALM

SYSTEM FOR TICKETS

Peculiarly Gifted Men are Chosen by Hagenbeck-Wallace Circus Management

No individuals about a great circus institution are regarded with greater awe and solemn wonder than the three persons who sell tickets in the "big show" wagon. There is something almost uncanny about their daily exhibition. Their flying hands put to shame the clutching display of the octopus. No quicker-brained, more resolute or more peculiarly gifted men exist than are with the Hagenbeck-Wallace circus, which will come to Brainerd tomorrow, Saturday, July 20.

With eyes fixed steadily before them, fingers and hands never lingering or sluggish, but accepting a counterfeit offering like a flash, the ticket sellers work as if human automata. Everybody seems excited and sometimes unreasonable. Uniformed employees maintain order. The wheels of the ticket wagon are buried to the hubs or it would be swept away in the rush. A mountain of bills and coin grows and is toppled into baskets. Soon these are filled and money litters the floor. There is no chance to assort or collect them until the ticket sale has ceased, and yet the day will record a balance as correct in details as the most exacting banking institution.

Red Cross Supper

The Red Cross Auxiliary of Oak Lawn, will give a farmers' supper at the Andrew Erickson farm Saturday evening, July 27, commencing at 7 o'clock. Come, bring your friends, enjoy a good supper and social evening. Get acquainted with your neighbors. Adults 25c, children 10c. Good music will be furnished during the evening by the Folsom Music Co. Come, all for the Red Cross. 30t2w

HOW TO GET POTATO BUGS

Paris Green and Lime Make Combination Which Will Exterminate the Pest Quickly

Paris green at the rate of 1 pound to 50 gallons of water, with a pound or two of lime makes a very satisfactory poison for potato bugs. Adding the lime prevents leaf-burn. Arsenate of lead is also a good poison and does not burn the leaves. One and one-half pounds of dry arsenate of lead to 50 gallons of water, or 3 pounds of arsenate of lead paste to the same amount of water makes an effective mixture, if applied as the eggs are hatching. Old grubs require a larger amount of the poison.—A. G. Ruggles, University Farm, St. Paul Minn.

Summer Idleness.

"What do you imagine that fellow is thinking about?" "The one with a pipe stuck in his mouth, his feet propped up on the porch railing and a far-away look in his eyes?" "Yes." "I don't know what he's thinking about, but I suspect he's promoting a nonsensical industry." "And what is that?" "Building air castles."—Birmingham Age-Herald.

DISPATCH ADS BRING RESULTS

AMUSEMENTS

"OH, BOY"

At Brainerd Opera House This Friday Evening, July 19

"Oh, Boy," the fourth and smartest of the Princess theatre, New York, musical comedies, will come to the Brainerd opera house this Friday evening, July 19, with Joseph Santley as the bright, particular star. The company and production will come here direct from a run of six months at the La Salle Theatre, Chicago.

Supporting Joseph Santley will be Laurence Wheat, Dorothy Maynard, James Bradbury, Hugh Cameron, Henry Dornton, Josephine Harrison, Lenore Chippendale, Lillian Brenard, Wilbert Dunn, Doris Faithfull, Billy Gould and others.

The book and lyrics of "Oh, Boy" are by Guy Bolton and P. G. Wodehouse, while the musical score is from the prolific pen of Jerome Kern who far surpassed his former triumphs in song hits in "Oh, Boy." Among the most popular are "Till the Clouds Roll By," "Pals," "It's Nesting Time in Flatbush," "The Old Fashioned Wife" and "I Never Knew About You."

The story tells of George Budd, a young college professor, who elopes with the daughter of Judge Carter. They are forced to keep the marriage a secret because George receives a telegram saying his Quaker aunt is expected to arrive at his home the following day and as she is much opposed to her favorite nephew's marrying. George and Lou Ellen decide to wait until she departs before they start on their honeymoon. Complications start to pile on the poor bridegroom's head right after the ceremony. An actress, fleeing from the police, sees George's living room window open. She climbs in and when George returns after taking his bride of a few hours to her mother's home to await the departure of his Quaker aunt, he finds the actress in his rooms all dressed for bed in blue pajamas. How he straightens the tangle afterwards many laughs and heaps of fun. As is the case with true love, everything turns out for the best and they are happy ever after.

At the Opera House Saturday

The "German Spy in Washington", a four-act comedy drama which will be seen at the Park opera house on Saturday, July 20th, deals with the attempted theft of secret instructions to be forwarded to General Pershing in France. The comedy is furnished by an English dude, a senator from Nevada and a weeping widow.

The story is one of intense interest, which combined with an exceptionally funny vein of comedy running throughout the play will no doubt be one of the best to be given by this popular company.

The Dougherty Circuit Stock company which has been playing Brainerd every Saturday for the past twelve weeks, have been giving excellent performances of comedy drama with vaudeville between acts, worth far

more than the small price of admission charged.

People attending the circus in the afternoon will have an excellent chance to witness this clever company of ten artists present a new play containing lots of good laughable comedy and of great interest to every one.

TO DRESS CHILDREN SIMPLY

Valuable Suggestions to Mothers in Caring for Youngsters, Saving Much Worry.

In order to meet the many demands for her time and service created by the war it is essential that the busy woman in the home conserve her energy and strength in every possible way, especially during the hot summer months.

The problem of dressing the children comfortably and economically during this season requires much time and thought. Miss B. M. Phelps of Macdonald college, Ontario, offers the following splendid suggestions on this subject to the women of Canada. These suggestions will be equally applicable to the women of other sections.

"Have as few clothes as possible. Materials are scarce and expensive; colors fade; garments are soon outgrown."

"Dress the one to three year olds in rompers, except when 'dressed up.'"

"Dress the three-year to school-age boy in overalls; he will be happy and it will save you time and worry. Make these at home from a good quality of blue denim."

"Dress the three-year to school-age girl in a simple one-piece frock and bloomers of the same material. For hard, rough wear galatea or Oxford shirting is ideal. If too heavy for hot weather, buy gingham or chambray."

"For the young schoolboy provide denim overalls or knickers of khaki drill. Shirts may also be of khaki color in a lighter material if desired."

"For the schoolgirl the simple smock or coat middie and separate skirt will meet all needs up to and partly through the 'teen age. One-piece frocks may often be made from outgrown ones by combining two of them. Girls from seven to twelve will still prefer to wear the comfortable bloomers."

FASHION AND FAD POINTERS

Styles That Are Being Worn by the Well-Dressed Women Who Are Up-to-Date.

Hems are very deep. Yellow trims red serge suits. Biege is combined with brick red. Taffetas are trimmed with straw braid.

Silk sweaters are replacing woolen ones.

There is a widespread revival of fringe.

Huge pearl buttons are used as trimming.

Satin is in favor for both capes and coats.

The best bandeaux have a plain flat finish.

The airplane shape of hat has reappeared.

Summer evening wraps are edged with fringe.

Tailor hats may be made entirely of organdie.

White serge suits are trimmed with yellow kid.

Belted coats are foremost in fashion's world.

Tunics have a graceful tendency to fall in points.

Long ribbon streamers are seen even on turbans.

Leghorn is frequently trimmed with black velvet.

There are blouses of velvet trimmed with organdie.

ALL-WHITE GOWNS

Sheer Organdies, Swisses and Linens Are Used.

Among the New Materials Arlette, With Texture Between Georgette and Crepe de Chine, Is Favored.

Looking at it from a fashion point of view, one realizes that after all there is really nothing more becoming than white, and summer is to see decided prominence given to the all-white costume, says a correspondent. There is a smart morning costume of simple tailored blouse and skirt, usually of linen or one of the new cotton materials; then for afternoon one changes to a more elaborate hand-made frilly blouse of batiste, with just a bit of fine lace, and completes the ensemble by a skirt of silk or satin; and for the summer evening frock nothing is lovelier or more satisfactory than white net or point d'esprit.

The charm of summer frocks lies not so much in anything startlingly new or conspicuous, but rather in exquisite daintiness. Sheer organdies, summery looking swisses and delicate nets and georgettes are all fashioned into the most adorable gowns, and as they are usually put together with the finest of handwork, the result is always distinctive. Among the new materials none is more beautiful than Arlette crepe. The texture is just between georgette crepe and crepe de chine, and there is a cross weave that gives character without in any way detracting from its filmy, delicate look. The range of colors is very wide, and it may be fashioned into the simplest of morning frocks or the most elaborate of evening creations. In dark shades it is admirably adapted for street wear as it is so delightfully cool.

Foulard and georgette offer unlimited possibilities for combining different materials in interesting ways, and they are so summery and cool-looking even in dark colors that they make ideal frocks for warm days.

What could be more attractive for summer wear than the shirtwaist frocks of crepe de chine or georgette made in the simplest fashion with tucks and beautiful collars and cuffs to give an air of immaculate freshness so essential at all times? A very pretty model is of liberty blue georgette; it has bands of blue and white foulard put on in a very effective way. The collar and waistcoat are of white organdie, beautifully embroidered and an odd touch is given by the bow and ends of lighter blue ribbon. Completing the costume is a hat, very chic and quite unusual. It is made of dark blue taffeta and for trimming has a plaited frill of white batiste.

COSTUME FOR FARMERETTE

For the girls who are following their brothers' lead in helping the land army and doing scout work this costume has been designed. It consists of a cotton khaki waist and skirt. The skirt is circular and opens all the way down the front. It is held in place by suspender straps.

Pockets on the Decline.

Pockets have gone the downward road prognosticated for them some time ago. They still appear on frocks of muslin, silk or satin and in coats and suits. Perhaps they are not quite so usual as they were last autumn, but for that very reason they are more effective. And they are emphasized, not merely placed with a quiet idea that they may be noticed or unnoticed, as chance may direct. On some of the new suits they are emphasized with a band of fur at the top, and on some of the silk frocks they are quite baglike in shape and size. Of course, the new calico frocks have pockets, some of them, but they are quite prim and flat, bound off, as befits calico pockets, with a bit of the same material, cut bias,

QUESTIONS ANSWERED

BEEF.

Why is beef one of the meats we are asked to save for the Allies? Because it is a concentrated food and keeps well.

Is there a shortage of beef in Europe?

Yes; there has been a large decrease of cattle in Europe since the war began.

Why is it difficult to raise cattle there?

Because of lack of men to tend cattle, insufficient fodder, and no means of growing enough fodder because much land has to be plowed up for grain or other human food.

Why is cattle shortage particularly serious?

Because it means not only less meat but also less milk.

Calorie.

What is a calorie?

The amount of heat needed to raise the temperature of one pound of water 4 degrees Fahrenheit.

How can we think of a calorie?

As a unit of measurement, just like a foot or a quart or a pound.

What does a calorie measure?

Heat energy.

What is a unit of energy?

Another name for calorie.

What food value does the calorie measure?

Its fuel value to the body.

Is it possible to have the right number of calories in the diet and yet not have the proper diet?

Yes; the calorie amount may not be properly distributed among the different necessary classes of food needed by the body.

What are these classes of food?

See answers to questions 204 and 225.

What are daily calorie needs?

For a working man, 3,500 to 4,000

For an active woman, 2,800 to 3,000

For a sedentary man, 2,200 to 2,800

For a sedentary woman, 1,800 to 2,300

Youth, 14 to 16 years, 1,500 to 3,200

How many calories does a soldier need daily?

Four thousand.

Candy.

How much money is spent annually in the United States for candy?

About \$400,000,000. This is almost double the amount needed to keep Belgium supplied with food for a year.

Ought children to give up candy?

They may well do so, if they get the sugar they need from other sources.

If we do eat candy, what kind ought we to confine ourselves to?

Conservation candies, such as chocolate-covered nuts and fruits, candies with corn syrup, honey, maple syrup, or molasses. The object is to save the cane and beet sugar.

Is there plenty of chocolate?

Yes; it is plentiful and pure and wholesome food.

Children.

Should children obey the instructions issued by the Food Administration?

Yes. These instructions are based on sound principles of health and take the special needs of the child into consideration. The Food Administration constantly emphasizes the fact that children should be properly nourished.

Should children have butter?

They should.

Should children have milk?

It is essential that children be given plenty of whole milk.

Should fruit and vegetables be included in the child's diet?

Children should have either fruit or vegetables, preferably both, every day. A healthy child between three and six may have almost any vegetable that he will chew thoroughly.

Do children need sweets?

They need some form of sugar in their diet.

Where else besides in candy can children get sugar?

In fruits, especially in the dried ones, and in fruit pastes, jams, jellies, honey, corn syrups, and maple sugar; also from cereals and other foods with which sugar is commonly used.

Ought children to give up soda water and other sweet drinks?

Yes; or their use should be greatly cut down.

How much milk, sugar, fats, and meat should children have daily?

Child of 10—

Milk, 1 pint.

Sugar, 3 ounces.

Fats, 2 ounces.

Meat, 4 ounces.

Demand For Trained Food Teachers and Demonstrators Far Exceeds Supply.

The division of home economics of the University of Minnesota has been able to supply applicants for but 27 per cent of the demands made upon it for teachers of home economics this year. Calls for teachers numbered 175, of which seven were filled temporarily and 64 were filled for next year, leaving 111 for which the university could supply no candidates.

Every girl in the graduating class of this year who prepared herself to teach both food and clothing questions is employed. Teaching, both in the high schools and as special home demonstrators, dietitians positions, home-making and the management of institutions are the occupations which have in the main claimed the services of graduates of the department of home economics of the state university.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

U. S. A. BUMPS LINE

A successful counter offensive is the best protection. The Chateau Thierry-Solsons line of the Americans and French is putting a crimp into the plans of Ludendorff, Hindenburg and the rest of them.

The addition of a million Americans to the Allies forces has enabled General Pershing to advance his men and well they are responding to the task, in fact there has been great difficulty in restraining some units from advancing too far and too quickly.

Air reconnaissance is warding off any surprise movements on the part of the Germans.

The American offensive will have the effect of upsetting Ludendorff's apple cart at Rheims and of spilling the beans along the Marne front. Besides it will mean a loss of prestige to German commanders, the Hun troops will suffer in morale and there will be the after effect on the German people at home fed to expect nothing but victories.

REHABILITATION OF SOLDIERS

The United States government is not going to be content with merely re-educating and rehabilitating its soldiers who have been disabled by wounds, and fitting them for useful and gainful occupations; it is not going to leave them to shift for themselves, but will exert an active continuing interest in their welfare.

This does not mean that the government is to coddle them or treat them as weaklings, but it is going to take an active interest in securing them work, and in other ways endeavor to make up to them the opportunities and advantages they lost by reason of wounds received in fighting their country's battles.

Every Liberty Loan Bond and every War Savings Stamp purchased aids in this work.

ENLISTMENT STIRRED

The American offensive has stirred the blood of Americans at home and enlistments are increasing.

As one said: "Gee, we better get started, boys, or the big show may be over before we can get across and over there."

Siberian Wedding Custom.

It is a custom in Siberia that when a woman is married she must prepare the wedding feast with her own hands. If the food is well cooked her credit as an accomplished housekeeper is established or vice versa. As a result of this practical custom most Siberian brides make good wives.

Bad Kidneys Laid Him Up

A slight kidney impairment may lead to dropsy or Bright's disease. Don't neglect it. Frank Miller, Bingham, Utah, writes: "Was troubled with my kidneys so bad I could not work. Tried many kinds of medicine which did me no good. Then I tried Foley Kidney Pills; now feeling as good as I ever did before." H. P. Dunn, druggist. mwf

The Turning Point

By JESSIE ETHEL SHERWIN

(Copyright, 1918, Western Newspaper Union.)

Myra Blake gave utterance to a shriek as there sounded a crash just beyond the fence surrounding the little woodland cottage, on the porch of which she and Mrs. Mason were seated.

Her hostess, white-haired and fragile, arose, all a-tremble, but she strove to be calm, as was her wont where an occasion called for the exercise of good judgment and prompt action.

"Don't be unnerved, Myra," she said in her quiet tone. "Some one is hurt and we must go to his aid."

"Oh, Mrs. Blake! Do you think the man is killed?"

Mrs. Mason tending the way, they hurried along the gravelled path and came out upon the outside walk. Lying upon the lawn was a man of middle age, and dashing around the next corner was a horse and buggy. The hind wheel of the vehicle lay in the road, where it had collapsed after striking a rock directly in front of the cottage. The collision had started up the horse, whose sudden dash had thrown its driver out of the buggy. Mrs. Blake leaned over the victim of the accident.

"Bring a basin of water and some towels, Myra," she said, "and the bottle of camphor. He is breathing regularly. I think he has been only stunned."

It was after a series of ministrations that the victim of the accident opened his eyes. It was some moments before he fully roused from a doze.

"It's my arm," he said, with a wince. "I think it is broken."

"You had better let us get you into the house, where you can be comfortable," suggested Mrs. Mason. "You help on that side, Myra, and be careful of the injured arm."

They got the sufferer into the house, led him to a couch and then Mrs. Myra gave Myra some directions. They were brief and to the point, and Myra started away to execute her mission with dispatch. Within an hour a doctor was in charge of the sufferer, and some neighbor boys had traced the horse and vehicle and got them to the village livery, where they belonged.

"It looks as though I was landed down on you good people for a spell," the stranger observed, as Myra brought him his supper on a server, and Mrs. Mason a cot from the attic and placed it in order in a corner of the room. "You see, I'm a stranger here, on business, but it will have to wait till I get over this shake-up. My name is Brooke Delmar, and I am in the moving picture business. The doctor says it will be a week before I can get around rightly. There is no hospital here, he says, and I'd be glad to pay you double rather than be laid up at the hotel, where I suppose I wouldn't get much care."

"There is plenty of room here," Mrs. Mason advised the patient. "You are welcome to such attention as we can give you."

The victim of the accident soon learned the situation at the little cottage. Mrs. Mason was a widow with a wild and reckless son, who had left home two years before and then was utterly lost to her. In striving to trace him, the distressed mother had received sorrowful news. The last she had heard of him was that he had become dissipated, and had left the city in company with a group of men bound for some newly discovered gold fields in the West.

If the anxious mother missed him, she had a sharer in her sadness and hopes. Before he left home Harvey Mason and Myra Blake, a neighbor's

daughter, had been something more than friends. They were not engaged, but Harvey had shown his love for her in many ways. It seemed, however, neither his affection for Myra nor that for his mother had served to shield the young man from the temptations of city life. Mutually those two gentle, patient souls mourned over the lost loved one; mutually they hoped that some day he would return.

Within a week Delmar was convalescent. He told the widow, as he handed her a liberal sum of money, that this but poorly paid for her kindness and care. "I'm going to throw a few hundreds in your way, though," he added. "I'll be along here in about a week with my photo men. I want to stage some scenes in the old house here as part of a movie I intend to bring out. All you have to do is to act natural—like you and Miss Blake standing before the picture of your son, and all that."

Harvey Mason had prospered. He had made a rich strike in the mining district and was a popular spendthrift. One night he and some friends rode to town for a "good time." It wound up at a movie show. Startled, sobered, Harvey noted a scene that thrilled him—his old home, his mother and his old sweetheart, arms entwined, sorrowfully regarding his picture on the wall!

Next day he sold his holdings and celebrated the bargain by saying good-bye to his associates. "My last drink, boys," he announced as they stood at the bar, and he drained—a glass of water.

And a month later Harvey Mason entered his abandoned home, to bring joy and brightness where there had been sorrow and despair.

There are 672 known volcanoes in the world, of which 272 are active.

HISTORY WROUGHT IN STONE

Marvels of French Architecture Which the Uncivilized Hordes of Germany Would Destroy.

In architecture France is supreme. It well may be said that without France there would have been no Gothic architecture. The cathedrals of France are absolutely unrivaled, says Cass Gilbert in the World's Work. One has only to mention the names of Notre Dame de Paris, Bourges, Reims, Chartres, Rouen, Amiens, Beauvais and Conques to bring up memories of miracles of creative design which no words can fittingly characterize or describe.

Wonders of constructive ingenuity as they are, they have a yet more supreme significance as evidence of the refinement and taste of a people instinct with emotion and ennobled by idealism in its most exalted phase. These great buildings give expression to the spiritual aspirations of a great people.

They are constructions of superb scale and fascinating beauty, embellished by tracery and arabesque, carving and inlay, stained glass, tapestry, bronze and iron of marvelous craftsmanship and exquisite design. They are the product of a thousand years of faultless taste, the contribution of innumerable thousands of craftsmen devoted to the glory of God and the love of France. And it is this glorious nation that the hordes of Germany would destroy.

Coughs and Colds Vanish

"Summer colds" are not hard to break up, coughs and hoarseness are easy to get rid of, if you will take Foley's Honey and Tar Compound. Mrs. Mary Sogdam, 282 Maple St., Perth Amboy, N. J., writes: "It helped my throat; never had anything better." Slightly laxative. Contains no opiates or narcotics. H. P. Dunn, druggist. mwf

Edward R. Syverson

Edward R. Syverson of Ironton has done much to develop Ironton and Trommald. Both are in prosperous mining sections of the North Cuyuna range.

Use Found for Opera Hats.

From a French inventor comes an advertising sign in which an opera hat is its housing. The sides of the hat are cut so that letters are removed that spell out the words of the sign. These letter holes are covered over with a thin light fabric of the same color as the hat. When undighted the letters remain invisible, but with one or more battery lamps placed inside and lighted, the hat becomes a conspicuous advertisement. The batteries may be carried in the pocket and wired under the coat to the neck and up to the hat over the hair on the back of the head. The current can be flashed on and off with a switch in the coat pocket. This is a real novelty in advertising signs and one which would be sure to attract attention.—Popular Science Monthly.

FROM PALACE OF PHARAOH

University of Pennsylvania to Have Pillar That Once Adorned Ruler's Throne Room.

The first word in a long time from the Eckley B. Coxe expedition to Egypt has been received at the University of Pennsylvania museum from Dr. Clarence S. Fisher, its leader. Doctor Fisher reported excellent success during the winter explorations at Denderah, the ancient capital of Egypt, up the Nile.

In April he returned to Memphis and continued his work of uncovering the palace of Merenptah, who is identified by many Biblical scholars as the Pharaoh of the Oppression, whose stubbornness brought on the plagues. If this is correct, the great hall and throne room of the palace, which has now been completely uncovered, was the scene of the appearance of Moses and Aaron before Pharaoh, and where the signs and wonders were performed. The throne is said to be in good condition, but Egypt will not permit it to come to this country.

Fortunately, Doctor Fisher has worked over the pieces of the 12 colossal pillars which upheld the roof and has recovered enough to make one complete pillar, which will be brought to the university museum and set up. It will be the most notable specimen of Egyptian architecture in this country. The pillars were six feet in diameter, 80 feet high, covered with inscriptions and pictures inlaid with gold. Much of the paneling of the room and the lintels of the doors also were inlaid with gold, and these will be brought here.

The natives of Egypt, it is said, call the palace "The Temple of Moses," as they have an idea that is where he was reared.

BINNER FOR BOYS AND RECEPTION

Crow Wing County Boys, 63 of Them,
Called to Colors on Monday,
July 22

SPECIAL TRAIN LEAVES CITY

Red Cross Ladies Serving, Brainerd
Band Plays, Chamber of Com-
merce Rooms Decorated

Plans for the dinner and reception in honor of the Crow Wing county boys who leave Monday, July 22nd for service in the world war, were discussed at a special meeting called by Mrs. J. A. Thabes, county chairman of the American Red Cross, under the supervision of which these dinners are given, and attended by the chairman, W. A. M. Johnstone and S. R. Adair of the special committee of the Chamber of Commerce named to assist in financing the same, and the secretary of the Chamber Thursday afternoon. Mr. Johnstone has prepared his report of the expenses of the last dinner and the donations to the same and this will be submitted to the Chamber of Commerce at the meeting July 24th. This report is herewith given in order that the public may be informed on the details of the same:

The Report

Brainerd, Minn.,
July 2, 1918.

To Brainerd Chamber of Commerce.

Gentlemen: Your committee appointed by President Thabes for the purpose of providing entertainment for Crow Wing county draftees departing on June 27th, 1918, and financing same, beg leave to report as follows:

Amount collected by committee as shown by attached list \$127.00
Amount of bills presented and paid 35.90

Balance in bank \$ 91.10
Your committee wish to extend to the ladies of the Brainerd Chapter of the Red Cross their hearty thanks for the magnificent assistance which made the dinner a real success, and we appreciate the willing, hearty and able help of the ladies. To Mr. Lincoln for his valuable assistance, to Miss Cecil Witham, Julius Witham, Tom Wood and William Graham for the music furnished during the dinner, to Morris Polson for the use of the piano, to William Lewis and N. M. Faine and assistants for moving the piano, to Rev. G. P. Sheridan, to G. A. R. Post, to the Brainerd City band, the N. P. drum corps, to Dick Herbert, Mr. Harrison, manager of the Iron Exchange hotel for valuable assistance rendered, also to Mrs. Carl Zappie, Mrs. F. S. Parker and A. O. Peterson for the beautiful pennies for decorating the tables, and to anyone who rendered assistance in entertaining and bidding farewell to our soldier boys.

Respectfully submitted,
W. A. M. JOHNSTONE,
T. J. SANBORN,
S. R. ADAIR.

The finance committee has listed those who have already donated to those dinners and they will not be called upon when the next solicitation is necessary.

Dinner Plans

The ladies of the Red Cross have been very successful in handling these dinners and functions for the soldiers leaving for the front and it has meant much hard, faithful work on their part. The rooms of the Chamber of Commerce have been attractively decorated and the appearance of the same, with ladies of the Red Cross in uniform acting as waiters, has been a cheerful one and served to encourage not only the boys who have gone away, but their friends and relatives who meet there to say to them "Goodbye."

The Brainerd band has been on the job on each occasion and the high

LIFT OFF CORNS!

Drop Freezone on a touchy
corn, then lift that corn
off with fingers

Doesn't hurt a bit! Drop a little
Freezone on an aching corn, instantly
that corn stops hurting, then you lift
it right out. Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a chemist's genius. It is wonderful.

school orchestra has furnished a very entertaining program of music during the dinner hour. At the last dinner, the Brainerd Fruit company contributed fruit and vegetables and this courtesy was very much appreciated.

The Menu

The dinner Monday will consist of the following menu:

Roast beef, mashed potatoes and brown gravy, salad, bread and butter, coffee, ice cream and cake. The meat, potatoes and gravy will be cooked under the direction of Dick Herbert, who will also assist in carving with R. W. Seelye and F. E. Stout. Mr. Herbert will be assisted by Mrs. Christine Sandberg in preparing the substantial. The fact that this is in such good hands insures the boys a splendid dinner and the ladies of the Red Cross feel gratified that Mr. Herbert has again agreed to assume charge of this important feature.

The splendid co-operation of the public in contributing to these dinners is much appreciated and indicates the spirit in evidence everywhere in Brainerd, to do our bit to make their going away as pleasant as possible. Detailed reports of the receipts and expenditures will be made after each dinner. Mrs. Thabes will call the ladies together at once to make arrangements for the many details incident to another successful dinner, on Monday, July 22nd.

All business houses and offices will be expected to decorate where convenient and close at 11:30 Monday and remain closed until after the train leaves Brainerd conveying the contingent leaving on July 22nd, in order to show the same respect to the soldiers leaving on Monday next that we have shown those leaving heretofore.

COAL SHIPPING TO 18 COUNTIES HALTS

Inquiry Under Way to Determine
Wood Available in the Timbered
Regions in North

PROTESTS FROM SOME TOWNS
Definite Orders Withheld Pending Investigation of Situation in
Each County

Coal shipments to communities in 18 Minnesota counties in the timber region have been suspended temporarily by the fuel administration, it became known today. Inquiry is under way to determine how far the communities affected will be able to supply their fuel needs this winter with wood. The embargo is not total against any county, and J. F. McGee, federal fuel administrator for Minnesota, said no locality will be deprived of coal if it needs it.

18 Counties Affected.

The embargo applies in part to the counties of Aitkin, Beltrami, Carlton, Cass, Cook, Crow Wing, Clearwater, Hubbard, Isanti, Itasca, Kanabec, Koochiching, Lake, Mille Lacs, Morrison, Pine, Roseau and St. Louis. Definite orders are being withheld, pending investigation of the situation in each county.

Vast amounts of dry fuel wood are standing or lying on the ground in most of these counties, ready to be cut. Warned last winter that they would be expected to make greater use of wood this season, people in many of the northern communities have been cutting fuel wood on a larger scale than ever before. The inquiry now on will determine how far the wood supply can replace coal.

Some Coal Believed Needed

It is not expected that coal can be dispensed with entirely in most of the northern towns. There are magazine stoves in private homes that burn nothing but anthracite coal, and there are heating plants in stores and business blocks that are not suitable to burning wood. But with the certainty of a fuel shortage for the northwest, communities adjacent to the largest supplies of fuel wood will be called upon to get along almost entirely without coal.

Protests are coming from some of the towns already to the fuel administration, saying that there is not labor available to cut the wood.

BATTING AVERAGES

Brainerd Team Records Compiled
Show Cook Still Leads the
Procession with 479

Brainerd batting averages in the Central Minnesota Red Cross League games is given below, showing Cook leading the procession with 479:

LOYALTY MEETING IN THE COUNTY

Hon. Frank Eddy and Sergt. Kennedy
Spoke at Hamlet Lake, Ironton,
Cuyuna, Etc.

THE ITINERARY OF NEXT WEEK

Pequot is to Have a Picnic in After-
noon, Moving Pictures in the
Evening

During this week the Hon. Frank Eddy has been addressing good sized audiences on loyalty and patriotism under the auspices of the Public Safety Commission and Ladies' Auxiliary, at Hamlet Lake, Iron Hub, Cuyuna, Trommald and Maanegese, and tonight will be joined by Sergeant Kennedy and a patriotic meeting held at Woodrow. All are invited, and a nice crowd to hear these two very interesting speakers is both hoped for and anticipated.

During the coming week there will be similar meetings to be addressed by the same men, the schedule being as follows:

Sunday, July 21, Jenkins.
Monday, July 22, Piney Ridge.
Tuesday, July 23, Homebrook.
Wednesday, July 24, Cross Lake.
Thursday, July 25, Emily.
Friday, July 26, Little Pine.
Saturday, July 27, Pequot is to have a picnic in the afternoon and patriotic moving pictures in the evening. These meetings are all worthy a good attendance, and an intellectual treat is promised all who come out.

BUSY WEEK AHEAD

Chamber of Commerce to be Scene of
Numerous Meetings and Func-
tions—Sec'y's Vacation Over

A busy week is ahead of the Chamber of Commerce and the vacation of Secretary Fred Lincoln, consisting of a week's outing at Gull Lake, must be dearly paid for.

Monday, July 22, the dinner and reception for the soldiers is to be given; Tuesday at 5 p. m., the Red Cross will meet; Tuesday evening, the directors of the Chamber of Commerce will be called together; Wednesday evening at 8 o'clock, the regular monthly meeting of the Chamber is to be held and the balance of week will be taken up with detail work of the different activities clearing through the Chamber.

Do vacations pay? Ask Lincoln, he knows. He says about all he got out of his week's "rest" was a pair of blistered shins, subjected to too much sun and water, a few "snake" pickers and three decidedly modest sized pike, with ridicule, verging on the border of abuse from Sam Adair because he failed to land a string of fish.

Little girls, visiting at the Adair cottage, caught several fine pike; not so with Rev. Phil Sheridan and the secretary. Lincoln says it's the company he was in; too sober and dignified; the man of cloth lays it to the secretary's fretful disposition and unwillingness to give the fish a chance to look his hook over. Be it here or there, Lincoln says he will take no more "rests" of this nature but the next time he will go for a month or not at all, and that he will cover his shins modestly and try no more Adair stunts. It don't pay and is also "rather uncomfortable, doncher know."

CROATIANS BUMP FARMER'S RIG

Five Croatians from Crosby taking a joy ride on the cement road on Thirteenth street collided with the buggy of George Young of Crow Wing township and tore off a wheel. The automobile crowd was arrested by Sheriff Claus A. Theorin and in municipal court before Judge Walter F. Wieland the five explained things. Four were discharged and the chauffeur was fined \$50.

CAPTURE DESERTER

Sheriff Claus A. Theorin Reports Tak-
ing in Custody Draft
Evader

Harold Otis Paddock, who was to report at Brainerd for entrainment for camp in August, 1917, was taken in custody by Sheriff Claus A. Theorin on the charge of draft evasion and will be sent to Fort Snelling.

How She Banished Backache.

Mrs. Effie E. Kieppe, Averill, Minn. writes: "I was at a sanitarium three weeks at one time, two weeks another time, for rheumatism and kidney trouble and got no relief. On my return began using Foley Kidney Pills; found immediate relief; half bottle completed the cure. Always use when I feel pain in my back."
H. P. Dunn, druggist.

LET JOY BE UNCONFINED

Hagenbeck-Wallace Circus Comes to
Town Early Saturday Morning,
Three Big Trains

27 SEPARATE TENTS IN SHOW

Big Top Dimensions are 680 by 350
Feet, Seating Capacity is 12,500
Persons

Let joy be unconfin'd! The Hagenbeck-Wallace circus will reach here tomorrow in its triumph march about the country, and Edward M. Ballard, its proprietor bids patrons come to its monumental entertainment with expectations keyed to the highest possible point.

The giant among amusement institutions comes eager to prove that it is the greatest of its kind, country and era, and that it never had and never can or will have a traveling like, equal or rival.

Soon after tomorrow's daybreak, it is expected, the three long railroad trains which are required to transport the circus will have reached this city. All arrangements have been completed for their undelayed progress into the railroad yards and for the speedy emptying of the sixty-eight flat, stock and sleeping cars.

Twenty-seven separate tents compose the Hagenbeck-Wallace encampment. The smallest is the circus barber shop; the colossus among them the "big top," whose dimensions are 680 by 350 feet, and within whose protecting folds are arranged comfortable seats for 12,500 persons. Other tents shelter menagerie, horses, ponies, ballet dancers, performers, side-show curiosities, musicians, physicians, dentists, postmaster and assistants, blacksmiths, carpenter, secret service men, painters and wardrobe and property men. In still another, the "cook tent," nearly 4,000 meals will be served tomorrow.

The street parade is scheduled to leave the show grounds at 11 o'clock tomorrow morning. Hagenbeck-Wallace promise a stunningly grand and glorious pageant parade to the performances on the show grounds, a mighty, moving panorama without a parallel in processional amaze. More than one thousand persons and seven hundred horses are enlisted.

When the circus opens its gates at one o'clock tomorrow afternoon to receive the human parade of patrons, the crowds who stop to comment and observe in the menagerie tent will find scores of dens of rare and "curious beasts" ranged in a great ellipse. Nearly two score elephants will swing their greedy trunks, and a rhinoceros and a hippopotamus will attract attention. Hagenbeck-Wallace contend that they have the finest and largest selection and collection of creatures of the wild in existence, that no other zoo in the world is so complete a veritable living encyclopedia of natural history.

By way of a horst d'oeuvre, there will be an enormous pantomime, twenty times as big as the biggest achievement of any theatre, and the crowning triumph of a circus career that has been crowded with splendid and spectacular successes. The audience will spend a fascinated half-hour in the realm of allegory. More than one thousand persons, including three hundred ballet girls, provide the color, life, rhythm, grace and maneuver.

The choruses display the alignment of West Point cadets. The terpsichorean ensembles have a fluent, flexible unity and a poetry of motion that are explained by the presence of a famous maitre de ballet.

But this ponderous pageant presentation is only an appetizer, a mere cocktail to the feast proper. Scarcely will its curtains have been drawn than the huge arena enclosure will be alive with acts. There are troupes of elephants that can do anything from trotting around with each other tails in their trunks to executing a patriotic military drill and dancing the tango; soloists, duos, trios, quartettes and companies of "human birds"; acrobats who seem more at home on flying rings and lofty horizontal bars than on terra firma; equestrians and equestriennes who would make the centaurs themselves look like novices by their feats of horsemanship; contortionists who can tie themselves into knots easier than a saleslady can wrap up a package in a department store; equilibrists who don't care any more about the laws of gravitation than a taxi chauffeur does about the speed limit; back-firing mules, boxing kangaroos, horses that can trot as gracefully as any cabaret performer on the circuit; milk white steeds and dogs that pose like artists models; Sandows of both sexes, performing ponies, slack-wire dancers that would make Blondin ashamed of himself, who can do a one-step on a slender cable ten feet above the ground as nonchalantly as if it were a ballroom floor; incredibly trained wild animals,

Athena Underwear For Summer Comfort

Athena Underwear is greatly appreciated in Summer time. It is tailored to fit and gives the greatest comfort to its wearer.

Best of all, it cost no more than ordinary kinds of same quality.

Women will appreciate the Athena Union Suits this summer weather.

H. F. Michael Co.

and an army of trapeze performers who are the most accomplished that Hagenbeck-Wallace have ever assembled.

Tickets may be purchased in advance all day tomorrow from a special circus representative at the H. P. Dunn Drug Co., at the same prices charged at the circus wagons on the show grounds. The circus will arrive from Little Falls over the N. P. R. R., and will depart at midnight Saturday for Ashland, Wis.

ROLL OF HONOR

Capt. A. A. Mackay of the engineering corps has arrived safely in England and is now stationed at Camp Seaforth.

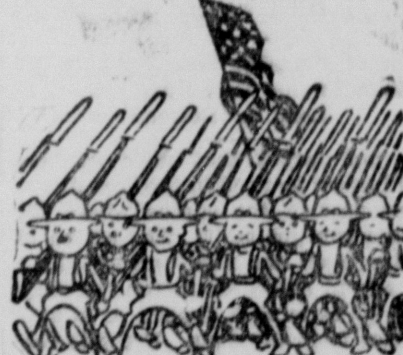

CROP REPORT

Crops Look Fine at Twin Oaks, Coun-
try Estate of J. C. Barber at
Nokay Lake

Crops look fine at the country estate of J. C. Barber known as "Twin Oaks" in Nokay Lake. O. N. Parmelee said rye was being cut and went 20 bushels to the acre. Barley will be cut next week. Oats will be a light yield. The wheat yield will be poor. Hay is a light crop and much will be cut by hand, every stump and corner being made to yield its quota.

Hay yield of the county is about a third of last year.

HERE'S THE REASON

This shows why you should "can" until you can't. Free book of instructions on canning and drying may be had from the National War Garden Commission, Washington, D. C., for two cents to pay postage.

GET AT IT NOW

This is one of the important things to know about canning. The National War Garden Commission of Washington, D. C., issues a free book on canning and drying, which may be had upon application, enclosing two cents for postage.

WHEN BEET MEETS BEET

They insist on doing their bit toward winter food preparedness. Use the tops, as directed in free book of canning and drying instructions issued by the National War Garden Commission, Washington, D. C. Send two cents for postage.

WANTS

HELP WANTED

WANTED—Experienced second cook at N. P. hospital. 2722-4013

WANTED—Good girl for general housework. Call 624-J. 2633-231f

WANTED—Boys to clean bricks by the thousand. E. C. Bane. 2724-401f

WANTED—Kitchen girl and silver girl at the Ransford hotel. 2723-401f

WANTED—Good girl for general housework. Good wages to competent girl. Enquire at Dispatch office. 2713-381f

WANTED—Unexperienced and experienced men for surface and underground work. Good wages. Omaha Mine, Woodrow, Minn. 2719-3913

FOR RENT

FOR RENT—Downstairs furnished rooms. 203 4th St. N. 2717-3913

FOR RENT—Furnished room, 704 Norwood street. 2691-341f

FOR RENT—Furnished room, 722 South Broadway. 271f

FOR RENT—Seven room house. Inquire at 406 6th St. S. 2603-161f

GARAGE room for two cars for rent. J. K. Pearce. 2700-351f

FOR RENT—A suite of modern rooms on the first floor with board. Mrs. Stillings, 303 N. 5th. 2403-2841f

FOR RENT—Unfurnished room, 824 7th Ave. N. E. 2703-3616

FOR RENT—Good houses, 4 to 7 rooms, at Barrows. Rent very reasonable. Iron Range Townsite Co., Barrows, Minn. 2714-3913

FOR RENT—A five room furnished flat for light housekeeping. Gas to cook with. Pearce block. 2705-361f

A FOUR ROOM cottage for rent at reasonable figure. For particulars call at my office. Henry I. Cohen, 201 Iron Exchange Bldg. 2677-311f

FOR RENT—Good light rooms at the National hotel. Terms by the week \$1.50, \$2.00, \$2.50 and \$3.00. Free bath. 2697-13516

FOR SALE

FOR SALE—Typewriter. 203 4th St. N. 2718-3913

FOR SALE CHEAP—Motorcycle or will trade for bicycle. Telephone 357-R.

FOR SALE—Koban 2-cylinder detachable boat motor. Call at Dispatch office. 2590-141f

FOR SALE—Frame school house at Barrows. Apply to Mrs. E. Beauille, 814 3rd St. S., Brainerd. 2716-3913

FOR SALE—Jersey cow. Charles Peterson, 9th and Washington Ave. Phone 315-M5. 2667-291f

FOR SALE—Nine room brick veneered residence at 624 N. 5th St. Inquire at 707 N. 5th St. 2658-271f

FOR SALE—Gas range and other furniture. Mrs. Beauille, 814 3rd St. S. 2715-3913

FOR SALE—160 acres unimproved land in Daguerre Brook, F. M. Koop. 2318-2741f

FOR SALE—Victor Victrola and 25 selected records. In first class condition. Telephone 385. 2712-381f

FOR SALE—120 acres improved farm land in South Long Lake. Good buildings. Fifty acres broke. F. M. Koop. 2319-2741f

FOR SALE OR RENT—House at No. 97 North Bluff. Modern in every respect. Hot water heat. Inquire of W. H. Taylor, % Lakeside Lumber Co. 2704-361f

MISCELLANEOUS

WANTED—To buy a large ice box. Dairy Lunch. 2577-111f

WANTED—To buy refrigerator in good condition. Address L. H. Dispatch. 2421-2871f

LADY wants position as housekeeper 307 South Seventh St. 2685-321f

LOST—Wrist watch at Lum park. Return to Olympia Candy Kitchen for reward. 2721-4012

LOST—\$5.00 and valuable papers in sack. Finder return to this office for reward. 2720-4011

WANTED—Plain sewing and dress making, 601 2nd Ave. N. E. Phone 42-R. 2681-321f

RUG—Wrapped in burlap addressed to J. L. Rardin lost between Brainerd and Baxter. Return to Koop Mercantile Co. 2695-341f

LOST—Auto cover on 13th street road. Return to Gust A. Johnson, 704 4th Ave. or phone 921-J. 2710-3713

Not Much Amiss.

"Well, my dear sir, and how are you today?" "Oh, doctor, I have terrible pains all over my body, and it seems almost impossible to breathe! Of course I can't sleep at all, and I haven't a particle of appetite." "But otherwise you feel all right, don't you?"

GOOD ADVICE ON AVOIDING FIRES

Professor Pratt Gives Hints to Owners and Drivers on Safety First.

PRECAUTIONS AGAINST FIRES

Principal Cause and One Which Occurs Most Frequently Is Backfiring—Gasoline in Drip Pan Another Source of Trouble.

Automobile fires, their causes and their prevention, is the general theme taken up by Prof. Clyde H. Pratt, president of the Cleveland Automobile school.

"Despite the many general campaigns of education of automobile owners and chauffeurs in precautions against fire, enough cases continue to occur to warrant a word of caution and an additional word of prevention," says Professor Pratt.

"While automobile fires do not always originate from causes considered to be within the control of the driver, the great majority are entirely unnecessary as well as preventable. The principal cause, of course, and the one which occurs most frequently, is backfiring. Although it is unnecessary to enumerate all the causes that lead up to backfiring, it is well to point out that the chief one is a mixture that is too lean when fed to the cylinders. Backfiring will almost invariably follow when this condition is present.

"When there is a back fire a sheet of flame bursts from the air intake of the carburetor, and if there is anything inflammable in that vicinity it is very apt to catch fire.

Sure to Make Trouble.

"Bearing always in mind that gasoline vaporizes very quickly, it is easy to understand that if there is gasoline in the drip pan there is almost sure to be a sufficient mixture about the carburetor to make trouble for the driver. The drip pan under the carburetor should be so arranged that the gasoline is drained off before it has time to vaporize.

"Under ordinary circumstances there should not be much gasoline there at any time. If it comes from a leak in the supply pipe or the carburetor connection it should be repaired at once; if it is from carburetor overflow, due to poor seating of the float valve, the carburetor should be cleaned.

"Under some conditions too fast running may be a cause for fire in the automobile. Great speed usually heats the exhaust pipe almost to a glow. If the pipe is close to woodwork, particularly where there is an accumulation of grease or dirt, there may be a fire. Keep the woodwork free from oil and grease at all times and thus prevent a possible blaze from this particular cause.

Oil and Grease Wasted.

"The exhaust pipe also heats when the engine is run with a greatly retarded spark. Here again oil would increase the menace. The economical operator will not allow oil or grease to be wasted in this way.

"Occasionally when the car is standing in the garage the supply line will leak a trifle. If under this condition the car is left standing in a closed garage all night, the vaporized accumulation on the floor would ignite from an open cutout when the engine is started.

"Sometimes the tank overflows when it is filled by an operator who is in a great hurry. Then in the further hurry to make a quick start the muffler cutout is opened and the driver finds that he is not due to leave the garage for some time to come, if ever, in that particular machine.

MOTORTRUCKS USED TO MOVE FURNITURE OF THE EMERGENCY FLEET CORPORATION

More than 100 big motortrucks operating in trains of 30 each were used to transfer the furniture and other effects of the Emergency fleet corporation from Washington to Philadelphia. The Washington quarters of the corporation were located in 20 different buildings, and six trains were required to take the employees alone by rail. The picture shows trucks being loaded at the main office in downtown Washington. The truck is the new standardized truck B, and this was its first hard test.

AVOID WASTE OF GASOLINE

Do Not Run Engine While Standing Still Unless Necessary—Make Use of Lean Mixture.

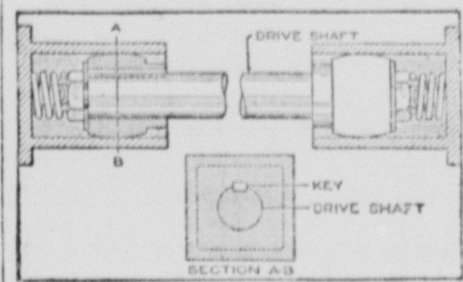

There are many ways to avoid gasoline waste. One is not to allow the engine to run idle, except when absolutely necessary. Another is to run your car on as lean a mixture as possible. The car may not accelerate as rapidly, and may cough a little when it is cold; but if you will be patient with it you will get much higher mileage. Every car has an economical speed, usually between 12 and 18 miles per hour. Try to drive at those speeds. Accelerate gradually, as this requires less gasoline than trying to reach top speed quickly. Anticipate your stops, close the throttle before you reach the stopping place, and coast to a standstill.

Keep your car running at top efficiency. This means keeping the motor free from carbon, as a carbonized motor consumes an excessive amount of fuel. Use a good grade of oil in the motor, and keep all moving parts well lubricated to reduce friction losses. Run the car on high as much as possible, as this is the economical speed. Keep the tires well inflated, as soft tires waste power. See that the brakes do not bind and cause friction when the car is running. Finally, use kerosene instead of gasoline for cleaning—Milestones.

PROVIDE FOUR WHEEL DRIVE

Invention of Oklahoma Man Supplies Simple, Inexpensive and Efficient Mechanism.

In illustrating and describing the invention of E. J. Collins of Lenora, Okla., the Scientific American says: The object of the invention is to provide a simple, inexpensive and efficient

Plan View of Drive.

mechanism, for connecting the motor directly with the front wheels of motor vehicles to provide a four wheel drive. The spindles of the front wheels are connected to axle sections by universal joint connections and these axle sections are connected by a differential.

CAREFULLY INSPECT NEW CAR

Not Safe to Assume That All Parts Have Been Properly Lubricated Before Shipping.

It is not safe to assume that all parts of the car that has just been delivered to the new owner have been properly lubricated. It sometimes happens that grease cups have been left unfilled when the car was shipped and that wheel bearings, universals, steering gears, etc., have been overlooked. It is always well to go carefully over the lubricating system of the new car and see that it has its due allotment of lubricant.

DO NOT USE FIBER WASHERS

Action of Gasoline Has Tendency to Make Engine Run Sluggishly—Lead is Better.

Do not forget that fiber washers should never be used in the fuel line or in any part of the engine where the gasoline can get at it. The action of gasoline upon the fiber washer has a tendency to make the motor run sluggishly by forming a deposit of minute particles from the fiber. For this reason lead washers should always be used in the fuel line.

Within Sound of the Guns.
A new sound arose in the darkness, a sound which held for me a thrill as vital and incomparably more alluring than the hint of distant battle. It rose slowly, a rich, mellow undulation, which stirred every fiber, and then quavered, descended and broke off. We stood motionless, listening with all our ears, and again it came, unmistakably, from the depths of the misty woods. My companion smiled at me in triumph. His first surprise had come off promptly, even ahead of time, for it was only now growing dusk. We could see in imagination the drooped tail, the hollow-cheeked muzzle raised skyward—a wolf uttering that cry which of all sounds is most symbolic of the northern wilderness; an hurlement plaintif et lugubre. I could not believe my ears, that here in the heart of France, with in sound of the guns at the front, I had heard the voice of a wild wolf.—William Beebe in Atlantic.

Every Woman Who Saves Is a "Goddess of Liberty"

THIS advertisement is for the women of Minnesota—for mothers, wives and daughters who are ready to serve the nation. This appeal is intended to reach the women who do the daily buying for the households of Minnesota, and to bring home to them the National necessity of Thrift in war-time.

American soldiers must be supplied with clothing, food and equipment—more will be needed from month to month. Ships must be built in which to send these supplies—more ships will be needed from month to month. Men and materials must be had for producing supplies, for building ships, and this can be done only if the women of America really make Thrift their buy-word from day to day.

To spend on those things not necessary for simple living is to deprive the Government of the labor and materials that go into their making—labor and materials now urgently needed in winning the war.

Practice the good old-fashioned habit of Thrift in your everyday living; save and lend your savings to the Government by investing in

War Savings Stamps

When you regularly practice Thrift, when you invest your savings in W. S. S., you are not alone SAVING but you are also EARNING.

War Savings Stamps cost \$4.16 in May, \$4.17 during June, etc. On January 1st, 1923, each stamp will be worth \$5.00. War Savings Stamps cannot decrease in value—and the Government will not permit any individual to own more than \$1,000 worth of them.

It is the duty and privilege of all Americans to save and lend their savings to the Government. If you have not already done so, decide today that you will buy your first W. S. S.—and become a registered War Saver for the Government. Every American woman is now privileged to be a "Goddess of Liberty"—for the woman who saves will be doing her share toward winning the war and freeing the world from autocracy.
